# Ultra 280

## ... Solar Ready Pool Pump!!

### The perfect choice for solar pool heating

Permanent Magnet Brushless 48 Volt 500 Watt 3PH DC Variable Speed Motor, Clear Basket Lid with Large Strainer Basket, High Grade Silicon Carbide Mechanical Seal, 316 Stainless Internals, Quiet Operation

Economical -  
Input Power just 600 watts  
16m Maximum Head  
290 L/Min Maximum Flow  
No Flow protection  
5 year warranty\*

Variable speed - Ultra 280 can be set to the perfect flow rate to suit your pool heating requirements

### Solar Ready Controller (heat your pool for FREE)

You can't take advantage of off-peak power rates when heating your pool. You have no choice but to run your pump during the day when electricity costs are highest. Ultra 280 consumes around just half the power of conventional pumps when running from mains power.

SUNSMART ULTRA 280 is 'Plug & Play' Solar Ready. Simply connect solar panels to the solar connectors and the Ultra 280 will run on solar power to virtually ELIMINATE electricity consumption. Even on moderate cloudy days, Ultra 280 will run totally from solar power; no MAINS electricity consumed

\* Pump Warranty - 3 year full warranty followed by 2 year pro-rata warranty. Mechanical Seal 2 year warranty. Solar Controller 3 years warranty
